# ACS WASC Accreditation Status Determination Worksheet

## How are students achieving?

Is the school doing everything possible to support high achievement for all its students?

### Directions

1. Discuss the evidence reviewed through the self-study and the visit for each of the factors. Particularly examine the schoolwide strengths and the schoolwide critical areas for follow-up.
2. Individually, read the factors and the supporting rubrics. Mark an “X” for the most appropriate rating in the box provided.
3. Read the attached sheets with the ACS WASC criteria and indicators prior to marking the most appropriate rating.
4. As a visiting committee, come to consensus on the most appropriate rating. NOTE: The rubrics are guides to assist in the synthesis of the visiting committee’s findings from the self-study and visit. Other points may need to be brought into the discussion.
5. Complete the official “Documentation and Justification Statement.”

- **Highly Effective**: The results of the self-study and the visit provide evidence that this factor has had a high degree of impact on student learning, the school’s program, and the school’s operation.
- **Effective**: The results of the self-study and the visit provide evidence that this factor has had a satisfactory level of impact on student learning, the school’s program, and the school’s operation.
- **Somewhat Effective**: The results of the self-study and the visit provide evidence that this factor has had a limited impact on student learning, the school’s program, and the school’s operation.
- **Ineffective**: The results of the self-study and the visit provide evidence that this factor has had little or no impact on student learning, the school’s program, and the school’s operation.

### Accreditation status will be based upon a school demonstrating the following factors:

### Parameters of the Self

- Some recognition by all stakeholders of the schoolwide learner outcomes.
- Multiple measures show acceptable progress for all students based on the critical learner needs, the academic standards, and the schoolwide learner outcomes.
- Recognition by all stakeholders of the need for continual improvement in ensuring students are prepared with critical and creative thinking skills, communication skills, and other 21st century skills/global competencies.
- Lack of involvement of all school instructional staff and other stakeholders in an in-depth review of critical learner needs and student data/information.
- Lack of involvement in evaluating school’s program and operations related to critical learner needs and the ACS WASC criteria.

- Partial involvement of all school instructional staff and other stakeholders in the in-depth review, analysis and dialogue of critical learner needs and student data/information.
- Partial involvement in addressing critical learner needs in the evaluation of the school’s program and operations in relation to the ACS WASC criteria.
- Limited recognition by all stakeholders of the schoolwide learner outcomes.
- Lack of involvement of all school instructional staff and other stakeholders in an in-depth review of critical learner needs and student data/information.
- Lack of involvement in evaluating school’s program and operations related to critical learner needs and the ACS WASC criteria.

- Critical learner needs addressed to some degree in the evaluation of the school’s program and operations in relation to the ACS WASC criteria.
- Limited recognition by all stakeholders of the need for continual improvement in ensuring students are prepared with critical and creative thinking skills, communication skills, and other 21st century skills/global competencies.
- Lack of involvement of all school instructional staff and other stakeholders in an in-depth review of critical learner needs and student data/information.
- Lack of involvement in evaluating school’s program and operations related to critical learner needs and the ACS WASC criteria.

A. ORGANIZATION FOR STUDENT LEARNING

A1. School Purpose

To what extent does the school a) have a clear vision and mission (purpose) that reflects the beliefs and philosophy of the institution and b) define the purpose further by adopted schoolwide learner outcomes that form the basis of the educational program for every student?

Beliefs and Philosophy: The written mission and vision (purpose) reflects the beliefs and philosophy of the school and its constituency.

Purpose, Schoolwide Learner Outcomes, and Profile Data: The student/community profile data has impacted the development of the school’s vision and mission and schoolwide learner outcomes.

Involvement of All: The school has a process for involving representatives of the entire school community in the development/refinement of the mission, vision, and schoolwide learner outcomes.

Consistency of Purpose, Schoolwide Learner Outcomes, and Program: There is a strong degree of consistency between the school purpose, the schoolwide learner outcomes, and the school program.

Communication about Vision, Mission, and Schoolwide Learner Outcomes: The school has means to publicize the vision, mission, and schoolwide learner outcomes to the students, parents, and other members of the school community.

Regular Review/Revision: The school has a process for regular review/revision of the school purpose and the schoolwide learner outcomes based on current and future learner needs and other local/global/trends/conditions.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

A2. Governance

To what extent does the governing authority a) adopt policies which are consistent with the school’s vision and mission (purpose) and support the achievement of the schoolwide learner outcomes; b) delegate implementation of these policies to the professional staff, and c) monitor results?

Clear Policies and Procedures: There are clear policies and procedures with regard to the selection, composition, and specific duties of the governing authority.

Pretraining of Potential Board Members: Individuals who seek board membership or are being considered as appointees by the board will have some form of training in the principles and skills essential to the effectiveness of the school board.

Relationship of Policies: The governing authority’s policies are directly connected to the school’s vision, mission, and schoolwide learner outcomes.

Involvement of Governing Authority: The governing authority is involved in the regular review and refinement of the school’s vision, mission, and schoolwide learner outcomes. The governing authority uses a variety of strategies to remain current in research-based knowledge about effective schools.

School Community Understanding: The school community understands the governing authority’s role.

Relationship to Professional Staff: There is clear understanding about the relationship between the governing authority and the responsibilities of the professional staff. The governing authority constrains its actions to policy making and strategic planning, while authorizing the administration to implement its decisions.

Board Evaluation/Monitoring Procedures: There is clarity of the evaluation and monitoring procedures carried out by the governing board, including the review of student performance, overall school programs and operations, and the fiscal health of the school.
Complaint and Conflict Resolution Procedures: The established governing board/school’s complaint and conflict resolution procedures as they apply to the school’s stakeholders are effective.

Evaluation Procedures: The governing authority carries out clearly defined evaluation procedures.

Evaluation of Governing Authority: There is a process for evaluating the governing authority.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

A3. School Leadership To what extent does the school leadership a) make decisions to facilitate actions that focus the energies of the school on student achievement of the schoolwide learner outcomes, b) empower the staff, and c) encourage commitment, participation, and shared accountability for student learning?

Defined Responsibilities, Practices, etc.: The school has administrator and faculty written policies, charts, and handbooks that define responsibilities, operational practices, decision-making processes, and relationships of leadership and staff. Evaluate the administrator and faculty written policies, charts, and handbooks that define responsibilities, operational practices, decision-making processes, and relationships of leadership and staff.

Existing Structures: The school has existing structures for internal communication, planning, and resolving differences.

Involvement of Staff: The school leadership has processes and procedures for involving staff in shared responsibility, collaborative structures and actions, and accountability to focus ongoing improvement on teaching and learning that supports student learning.

Evaluation of Existing Processes: The school leadership regularly reviews the existing processes to determine the degree to which actions of the leadership and staff focus on successful student learning.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

A4. Staff To what extent are the school leadership and staff a) qualified for their assigned responsibilities, b) committed to the school's purpose, and engaged in ongoing professional development that promotes student learning?

Employment Policies/Practices: The school has clear employment policies/practices related to qualification requirements of staff.

Qualifications of Staff: The school reviews all information regarding staff background, training, and preparation.

Maximum Use of Staff Expertise: The school has a process to assign staff members and provide appropriate orientation for all assignments, including online instruction and specialized programs so that the expertise of the staff members is maximized in relation to impact on quality student learning.

Defining and Understanding Practices/Relationships: The school has clear administrator and faculty written policies, charts, and handbooks that define responsibilities, operational practices, decision-making processes, and relationships of leadership and staff.

Staff Actions/Accountability to Support Learning: The school evaluates the effectiveness of the processes and procedures for involving staff in shared responsibility, actions, and accountability to support student learning throughout all programs. This includes an evaluation of the collegial strategies used to implement innovations and encourage improvement, such as shadowing, coaching, observation, mentoring, group presentations.

Support of Professional Development: The school effectively supports professional development/learning with time, personnel, material, and fiscal resources to facilitate all students achieving the academic standards and the schoolwide learner outcomes.

Supervision and Evaluation: The school implements effective supervision and evaluation procedures in order to promote professional growth of staff.

Measurable Effect of Professional Development: There are effective operating processes that determine the measurable effect of professional development, coaching and mentoring on student performance.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.
A5. School Environment

To what extent a) does the school have a safe, healthy, nurturing environment that reflects the school’s purpose and b) is the school environment characterized by a respect for differences, trust, caring, professionalism, support, and high expectations for each student?

Caring, Concern, High Expectations: The school demonstrates caring, concern, and high expectations for students in an environment that honors individual and cultural differences.

Student Self-Esteem: The school fosters student self-esteem through high expectations for each student and recognition of successes.

Mutual Respect and Communication: Mutual respect and effective communication among and between staff, students, and parents is evident.

Teacher Support and Encouragement: There is a level of support and encouragement for teachers to use innovative approaches to enhance student learning.

Safe, Clean, and Orderly Environment: The school has existing policies, regulations and uses its resources to ensure a safe, clean, and orderly place that nurtures learning, including internet safety.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

A6. Reporting Student Progress

To what extent does the school leadership regularly a) assess student progress toward accomplishing the schoolwide learner outcomes and b) report students’ progress to the rest of the school community?

Reporting Student Progress: There are effective processes to keep the board and parents informed about student progress toward achieving the academic standards and the schoolwide learner outcomes.

Monitoring of Student Growth: The school has an effective system to monitor all students’ progress toward meeting the academic standards and schoolwide learner outcomes.

Modifications Based on Assessment Results: The school uses assessment results to make changes in the school program, professional development activities, and resource allocations demonstrating a results-driven continuous process.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

A7. School Improvement Process

To what extent does the school leadership a) facilitate school improvement which is driven by plans of action that will enhance quality learning for all students, b) have school community support and involvement, c) effectively guide the work of the school, and d) provide for accountability through monitoring of the schoolwide action plan?

Broad-Based and Collaborative: The school’s planning process is broad-based, collaborative and has commitment of the stakeholders, including the staff, students, and parents.

School Plan Correlated to Student Learning: The school’s action plan is directly correlated to the analysis of student achievement data about the critical learner needs, schoolwide learner outcomes, and academic standards.

Systems Alignment: Within the school there is evidence of systems alignment in areas such as professional goals, teacher evaluation, and strategic planning for the purpose of ongoing school improvement.

Correlation between All Resources, Schoolwide Learner Outcomes, and Plan: There is correlation between allocation of time/fiscal/ personnel/material resources and the implementation, monitoring, and accomplishing of the schoolwide action plan.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.
B. CURRICULUM, INSTRUCTION, AND ASSESSMENT

B1. What Students Learn

To what extent does the school provide a challenging, coherent, and relevant curriculum for each student that fulfills the school’s purpose and results in student achievement of the schoolwide learner outcomes through successful completion of any course of study offered?

Current Educational Research and Thinking: The school provides a comprehensive and sequential documented curriculum that is modified as needed to address current educational research and thinking, other relevant international/national/community issues, and the needs of all students.

Academic Standards for Each Area: The school provides a comprehensive and sequential documented curriculum that is articulated within and across grade levels for the improvement of programs, learning, and teaching.

Congruence: There is congruence between the actual concepts and skills taught, the academic standards, and the schoolwide learner outcomes.

Student Work — Engagement in Learning: The school’s examination of representative samples of student work and snapshots of student engagement in learning demonstrates the implementation of a standards-based curriculum and the schoolwide learner outcomes.

Accessibility of all Students to Curriculum: A rigorous, relevant, and coherent curriculum to all students is accessible to all students through all courses/programs offered. The school examines the demographics and situation of students throughout the class offerings. The school’s instructional practices and other activities facilitate access and success for all students.

Acceptable Student Achievement: The school demonstrates acceptable student learning of the academic standards and the schoolwide learner outcomes through defined performance indicators.

Integration Among Disciplines: There is integration among disciplines at the school and, if applicable, integration of outsourced curriculum into the program for which curricular integrity, reliability, and security is maintained.

Curricular Review, Revision, and Evaluation: The school assesses its curriculum review, evaluation, and review processes for each program area, including graduation requirements, credits, grading policies, and homework policy regarding the impact of these processes on providing a challenging, coherent, and relevant curriculum for all students.

Collaborative Work: The administrators and teachers use various collaborative strategies to examine curriculum design and student work in order to refine lessons, units, and/or courses.

Accessibility of all Students to Curriculum: All students have accessibility to a challenging, relevant, and coherent curriculum.

Policies — Rigorous, Relevant, Coherent Curriculum: The school assesses the curriculum and its rigor, relevancy, and coherency after examination of policies regarding course completion, credits, grading policies, homework, use of technology, etc.

Articulation and Follow-up Studies: The school conducts student follow-up studies that provide insight to the effectiveness of the instruction to prepare students for pursuing further education, entering the work force, or meeting their personal goals.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

B2. How Students Learn

To what extent does the professional staff a) use research-based knowledge about teaching and learning and b) design and implement a variety of learning experiences that actively engage students at a high level of learning consistent with the school's purpose and schoolwide learner outcomes?

Research-based Knowledge: The administrators and teachers use a variety of approaches to remain current in research-based professional knowledge and apply the knowledge to improve teaching and learning. All students regardless of background and ability are actively involved in the learning that is based on the schoolwide learner outcomes and academic standards.

Planning Processes: The planning processes, including the use of formative assessment results, focus on the engagement of all student activity at a high level of learning consistent with the academic standards and schoolwide learner outcomes.

Professional Collaboration: Administrators and teachers use various collaborative strategies to examine curricular design and student work to improve learning and teaching, including demonstrating critical thinking, problem solving, knowledge, and application. This would include examples of the selection of the instructional approaches based on the learning purpose(s) desired.
Professional Development: The school uses ongoing professional development to enhance the curriculum and improve learning and teaching.

Challenging and Varied Instructional Strategies: The teachers strengthen student understanding and achievement of the learning outcomes through the use of a variety of instructional strategies that are selected on the basis of the learning purpose(s) and effectively engage students at a high level of learning. This includes the integration of multimedia and technology as appropriate.

Technological Integration: Teachers systematically integrate technology within the school so that all students develop a wide range of technological skills.

Evidence of Results Based upon Challenging Learning Experiences: Students working and their work demonstrate critical and creative thinking, problem solving, knowledge attainment, and application skills.

Student Understanding of Learning Expectations: The students know the standards/expected performance levels for each area of study.

Student Perceptions: Interviews and dialogue with representative students inform the degree to which learning experiences are relevant in preparing students for college, career, and life.

Student Needs: Teachers address student needs through the instructional approaches used.

Student Use of Resources: Students use resources for learning beyond the limits of the textbook such as effective use of collaborative activities, technology, library/media resources, and community resources.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

**B3. How Assessment Is Used**

To what extent a) is teacher and student use of assessment frequent and integrated into the teaching/learning process; b) are the assessment results the basis for measurement of each student's progress toward the schoolwide learner outcomes and academic standards; c) are the assessment results the basis for regular evaluation, modification, and improvement of curriculum and instructional approaches; and d) are the assessment results the basis for the allocation of resources?

Appropriate Assessment Strategies: The teachers regularly use appropriate assessment strategies to measure student progress toward acquiring understanding of a specific body of knowledge or skills, such as critical thinking and communication skills; examples of assessment strategies include essays, portfolios, individual or group projects, tests, etc.

Basis for Determination of Performance Levels: The school staff has determined the basis upon which students’ grades and their growth and performance levels are determined and uses that information to strengthen high achievement of all students.

Demonstration of Student Achievement: A range of examples of student work and other assessments demonstrate student achievement of the academic standards and the schoolwide learner outcomes, including those with special needs.

Correlation: The teachers correlate assessment to schoolwide learner outcomes, academic standards, course competencies, and instructional approaches used.

Modification/Decisions based on Assessment Data: Assessment data is collected and analyzed and used to make changes and decisions about curriculum, instruction, professional development activities, and resource allocation. Teachers modify and revise the curriculum and instruction as a result of student assessment, both collectively and individually.

Student Feedback: Student feedback is an important part of monitoring student progress over time based on the schoolwide learner outcomes and the curricular objectives.

Teacher Monitoring: Teachers monitor student progress over time and use student feedback as appropriate to determine whether course objectives and standards have been met.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.
C. SUPPORT FOR STUDENT PERSONAL AND ACADEMIC GROWTH

C1. Student Connectedness

**To what extent are students connected to a system of support services, activities, and opportunities at the school and within the community that meet the challenges of the curricular and co-curricular program in order to achieve the schoolwide learner outcomes?**

**Adequate Personalized Support:** The school has available adequate services, including referral services, to support all students in such areas as health, career and personal counseling, and academic assistance.

**School Support Systems:** The school coordinates a system of support services that provides for maximum effectiveness, including the processes for intervention and referral.

**Strategies Used for Student Growth/Development:** Strategies are used by the school leadership and staff to develop personalized approaches to learning and alternative instructional options which allow access to and progress in the rigorous standards-based curriculum. Examples of strategies include: level of teacher involvement with all students, a curriculum that promotes inclusion, processes for regular review of student and schoolwide profiles, and processes and procedures for interventions that address retention and redirection.

**Support Services and Learning:** The school leadership and staff ensure that the support services and related activities have a direct relationship to student involvement in learning, e.g., within and outside the classroom, for all students.

**Co-Curricular Activities:** School leadership and staff link curricular and co-curricular activities to the academic standards and schoolwide learner outcomes.

**Student Involvement in Curricular/Co-Curricular Activities:** The school has an effective process for regularly evaluating the level of student involvement in curricular/co-curricular activities and student use of support services.

**Student Perceptions:** The school is aware of the student view of support services through such approaches as interviewing and dialoguing with student representatives of the school population.

**Conclusions:** Additional evidence regarding the degree to which this criterion is being addressed.

C2. Parent/Community Involvement

**To what extent does the school leadership employ a wide range of strategies to ensure that parental and community involvement is integral to the school’s established support system for students?**

**Regular Parent Involvement:** The school implements strategies and processes for the regular involvement of parents and the community, including being active partners in the learning/teaching process for all programs. The school involves non-English speaking parents and/or online parents.

**Use of Community Resources:** The school uses community resources to support students such as professional services, business partnerships, speakers, etc.

**Parent/Community and Student Achievement:** The school ensures that the parents and school community understand student achievement of the academic standards/schoolwide learner outcomes through the curricular/co-curricular program.

**Conclusions:** Additional evidence regarding the degree to which this criterion is being addressed.

D. RESOURCE MANAGEMENT AND DEVELOPMENT

D1. Resources

**To what extent are the resources available to the school sufficient to sustain the school program and effectively used to carry out the school’s purpose and student achievement of the schoolwide learner outcomes?**

**Allocation Decisions:** There is a relationship between the decisions about resource allocations, the school’s vision, mission and student achievement of the schoolwide learner outcomes and the academic standards. The school leadership and staff are involved in the resource allocation decisions.

**Practices:** The school develops an annual budget, has an annual audit, and at all times conducts quality business and accounting practices, including protections against mishandling of institutional funds.
Facilities: The school's facilities are adequate, safe, functional and well-maintained and support the school's mission, desired learner goals, and educational program.

Instructional Materials and Equipment: The policies and procedures for acquiring and maintaining adequate instructional materials and equipment, such as textbooks, other printed materials, audio-visual, support technology, manipulatives, and laboratory materials are effective.

Well-Qualified Staff: Resources are available to enable the hiring, nurturing, and ongoing professional development of a well-qualified staff for all programs such as online instruction and college/career. Resources are available to enable the hiring, nurturing, and ongoing professional development of a well-qualified staff for all programs such as online instruction and college/career.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.

D2. Resource Planning To what extent do the governing authority and the school leadership execute responsible resource planning for the future?

Long-Range Resource Plan: The school has developed and implemented a long-range resource plan. The school has a process for regular examination of this plan to ensure the continual availability of appropriate resources that support the school’s vision, mission, and student learning of schoolwide learner outcomes and academic standards.

Use of Research and Information: The school uses research and information to form the master resource plan.

Involvement of Shareholders: Stakeholders are involved in the future planning.

Informing: The governing authorities and school leaders are involved in informing the public and appropriate governmental authorities about the financial needs of the organization.

Marketing Strategies: The school has marketing strategies to support the implementation of the developmental program.

Conclusions: Additional evidence regarding the degree to which this criterion is being addressed.
